

ABB DriveLab ACS880 HIL Compatible Release Notes

v1.0.0

- Initial version.

v1.0.1

- Added Circuit Breaker component to replace the existing Breaker component, enabling easier parametrization for matching the hardware setup.
- Added OGC example model.
- Changed ISU unit model.
- Hardware documentation extended.
- SCADA panels for INU application updated.

v1.0.2

- Added support for additional product codes for INU parallel configuration:
 - ACS880-104LC 3580A-7
 - ACS880-104LC-4050A-7
 - ACS880-104LC-4840A-7
 - ACS880-104LC-5650A-7
 - ACS880-104LC-6460A-7
 - ACS880-104-3990A-7
 - ACS880-104-4560A-7
 - ACS880-104-5130A-7
 - ACS880-104-5700A-7
- Added support for additional product codes for ISU parallel configuration:
 - ACS880-204LC-3320A-7
 - ACS880-204LC-3840A-7
 - ACS880-204LC-4360A-7
 - ACS880-204LC-5240A-7
 - ACS880-204LC-5810A-7
 - ACS880-204-4100A-7
 - ACS880-204-5130A-7
- Added option to remove filter from HIL880 component.
- Moved resistance and DC bus coupling properties to Additional settings.

v1.0.3

- Changed description of the package.
